AGENT

Experience

Transfer of technology agent 2017 –

[Ecole Normale Supérieure](#), Paris, France

Patent agent 2017 – (9 mois)

[Nony Patent and Trademark](#), Paris, France

French and International Patent application writing, filling and examination procedure follow up.

Postdoctoral Researcher 2013 – 2015 (2.5 years)

[Chemistry department](#), University of Colorado Boulder, USA

Preparation of organic compounds for the observation of

singlet fission in solution and cationic **polymerization** of α -olefins.

Sorting results ready for publications. Managing students. *Presentation* the obtained results at 2 international congresses.

Ph.D. Student 2009 – 2012 (3 years)

[Sciences Chimiques de Rennes](#), University of Rennes, France

Multiresponsive organometallic switches, synthesis and physico-

chemical studies: another approach to **molecular electronics**. *Guidance*

of undergraduate students. *Presentation* the results at 3 international

congresses, *publication* of these in **8 research papers**, one of them in [Nature](#)

[Communication](#).

Ph.D. exchange 2011

[Department of Chemistry](#), University of Constance, Germany

Collaborating on a research project in a partner lab. (1 month)

[School of Materials Science & Engineering](#), N. T. U., Singapore

Visit in a partner lab to *understand* the techniques used to observe the

behavior of my compounds inserted in **electronic devices**. (1 month)

Internship 2008 (5 months)

[BASF](#), Ludwigshafen am Rhein, Germany

Preparation of new **catalysts** in a research lab of the **company**.

Education

Patent law, trademark and design certification

[CEIPI University of Strasbourg](#), France

2015 – 2016

Ph.D. in organometallic chemistry

[University of Rennes](#), France

2009 – 2012

31 years old, French
